

Find your perfect fit

Our bracelets come in two sizes — 6.5" and 7.5". Print this guide at 100% scale and you'll know yours in under a minute.

Print check. This square is exactly 1" x 1". Measure it with a ruler — if it isn't exact, reprint at "Actual size" (not "Fit to page") in your print settings.

01 Cut & wrap

The quickest way — no tape measure needed.

6.5" — FITS MOST WRISTS

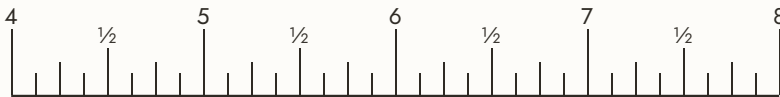

7.5" — A RELAXED FIT

1. Cut out a strip along the dashed line.
2. Wrap it around your wrist, just below the wrist bone.
3. Your size is the strip that meets end to end with a little breathing room.

02 Measure your wrist

Prefer numbers? Use the true-size ruler below.

1. Wrap a soft tape — or a strip of paper — snugly around your wrist.
2. Mark where it meets, then measure it flat against a ruler.
3. Choose the bracelet size just above your wrist measurement.

Between sizes? Size up — a little ease is the difference between jewelry you wear and jewelry you keep.
